

**Definition for Dried Grape Bunches. VERSION 0.1**

Permitted dried grape bunches include the peduncle (small pedicels) holding the stems together and the rachis stem. The woody branch or cane (shoot) is not permitted, refer diagram below.

**NOTE:** the cane or shoot above the red line is not permitted.

**Disclaimer:** *The diagram below shows a fresh grape bunch and is an example only. Fresh grapes are not permitted from Argentina.*
